---

*A 5-Day Living Laboratory of Quantum Consciousness & Personal Transformation*

**Life Intelligence University (LIU)**

Decentralized Future Education of Self-Learning & Self-Discovery

**Founder:** Grandmaster DeRu (德如)

**Ecosystem Scale:** Limited to 10 Sacred Positions

**Operational Blueprint & Investment Matrix**

# The LIU Manifesto: The Radical Emptiness

---

Humanity has long been trapped in a closed loop, perpetually repeating the fears, conflicts, scarcity architectures, and competitive mindsets encoded into the DNA of past generations, ancestral family clans, and rigid cultural traditions. This old operational system (**OS**) forces humanity to perceive reality through heavily filtered, conditioned goggles of historical knowledge, intellectual frameworks, and traumatized emotional attachments.

**Life Intelligence University (LIU)** is the evolutionary disruption. Founded by Grandmaster DeRu, LIU represents a profound shift toward decentralized future education based on autonomous self-learning and direct self-discovery.

This 5-day journey into the absolute wild and raw plainfields is an active living laboratory designed to execute a total systemic override of the old human architecture. Utilizing the **Diamond Wisdom Sword**, we intentionally slice through the illusion of separation and inherited conditioning. In that absolute emptiness of infinite potentiality, we polish and clear the **Super-Sense and Super-Consciousness Antenna**, anchoring a brand new human operating system capable of continuous, lifetime learning and fluid, collaborative co-creation alongside emerging **AGI (Artificial General Intelligence)** and **SAI (Super Artificial Intelligence)** ecosystems.

*"Together we are to create and innovate the future of humanity; together we discover anew, perceive anew, conceive anew and receive anew; together we co-create a new life with an ecosystem coherent with nature and with the cosmos."*

## The Arts & Sciences of Inner Space Exploration

---

The curriculum of this immersion has no rigid classrooms or static time constraints. It operates like water, adjusting fluidly to the landscape, the sky, the rivers, and the real-time resonance of the 10 selected participants. The core practices scale through consecutive modules to transition body and mind into a frictionless wave of action-less action (**WuWei**):

### 1. The 999 Medibreath Cosmic Ecosystem

A physiological calibration mechanism that establishes structural coherence within the nervous system. Participants shift from survival-driven, localized thinking into open-source cosmic reception, breathing in absolute synchronization with the landscape and sky.

### 2. Zen Tai Gong & Toroidal Activation

Meditation-in-motion that activates the body's natural **Yin-Yang** electromagnetic toroidal field. The boundaries of the skin dissolve; participants cease to be solid particles moving through space, becoming instead fluid space itself in resonance with the cosmos.

### 3. The Rooted Axis & Creative Fluid Flow

Deep meditative stances, pole training, and balance work alternate with spontaneous, biomorphic movements mimicking trees, plants, rivers, and wildlife. This process overrides generational conditioning at a cellular level, allowing the physical vehicle to hold the sudden quantum leap in consciousness.

## Operational Field Budget Breakdown

To keep Grandmaster DeRu and the 10 sacred participants entirely inside the frictionless state of **WuWei**, an elite, minimalist support team consisting of a Project Manager, a Logistics Manager, an Assistant, Three Assistant Coaches, and a specialized Cinematic Film Crew will manage all earthly constraints. The target budget to completely anchor this operation is evaluated at **\$50,000**.

Operational Domain	Functional Scope & Logistics	Allocation
<b>Cinematic Film Production</b>	Minimalist, high-vibrational media team capturing the living lab; 4K/6K cinema gear, aerial drone captures, and initial sound design/mastering.	\$15,000
<b>Lodging &amp; Wilderness Outposts</b>	Curated high-vibrational eco-lodges for integration phases, transitioning into deep wilderness basecamps for 17-18 total personnel.	\$12,000
<b>Ground Travel &amp; Field Logistics</b>	Fleet of 4x4 off-road vehicles, deep wilderness fuel caches, specialized regional permits, and satellite telecom arrays.	\$8,000
<b>High-Prana Nutrition</b>	Clean, raw, organic catering and field chef logistics designed to support intense physiological and energetic updates.	\$6,000
<b>Crew Honorariums</b>	Base operational travel stipends for the PM, Logistics Manager, Assistant, and Three Assistant Coaches.	\$6,000
<b>Contingency Reserves</b>	Field emergency protocols, unexpected environmental adjustments, and remote mechanical backups.	\$3,000
<b>Total Inflow Target</b>	<i>The material capital required to anchor the living laboratory.</i>	<b>\$50,000</b>

# The 6-Tier Capital Inflow & Funding Ecosystem

To eliminate financial friction and reflect the circular abundance model of LIU, investment and cost-sharing are distributed across a 6-tier ecosystem matrix. This model allows individuals of high energetic resonance to participate regardless of their baseline material capital, balancing the fields through a cooperative wave.

Investment & Donor Tiers	Ecosystem Access & Strategic Alignment	Inflow Value
<b>1. Confounded Sponsorship</b>	Institutional or corporate partners seeking to align with the core infrastructure of LIU future education labs.	Strategic Pool
<b>2. Pioneers Co-Founder Diamond Donor</b> <i>(2 Positions Available)</i>	High-net-worth visionaries seeding the foundational film production, media archives, and core logistics. Holds a permanent advisory position in the decentralized university infrastructure.	\$15,000 / spot <b>(\$30,000 Total)</b>
<b>3. VIP Funding Donors</b> <i>(2 Positions Available)</i>	High-resonance leaders carrying their baseline operational costs while actively subsidizing the high-prana organic food and premium eco-lodging upgrades.	\$7,000 / spot <b>(\$14,000 Total)</b>
<b>4. Standard Donors</b> <i>(4 Positions Available)</i>	Direct cost-sharing participants. Contribution maps precisely to the per-capita utilization of ground transit, room, and board in the field.	\$2,000 / spot <b>(\$8,000 Total)</b>
<b>5. Partial Scholarship</b>	Reserved for innovators, artists, or deep-space researchers holding the exact required frequency, subsidized by the collective pool.	Variable Inflow
<b>6. Full Scholarship with Commitment in Flow</b> <i>(2 Positions Available)</i>	Fully subsidized positions for exceptional souls. Zero initial financial capital required; counter-balanced by a sacred vow to return their unlocked genius, labor, or creative assets back into LIU labs.	\$0.00 Initial <b>(Flow Return)</b>
<b>Total Consolidated Capital</b>	<i>Secures complete field execution with a robust operational buffer.</i>	<b>\$52,000</b>

## Onboarding Calibration & Invitation

---

We do not seek students; we open space for the particles of a unified cosmic wave function. If you hold the open heart, the willingness to wield the Diamond Wisdom Sword against ancestral illusions, and the vision to pioneer a new, compassionate earthly ecosystem alongside advanced cognitive technologies—the flow is waiting.

Contact the Life Intelligence University Project Management desk to calibrate your alignment tier and secure one of the 10 sacred field positions.

**Xing Tian Đạo. The future of humanity is in motion.**
